

"FOR ALL MEMBERS OF THE NATIONAL FISH CARVERS GUILD"

Dated: 1/21/01

Welcome to our news and announcements page. The past few months have been very eventful and exciting for us here at the National Fish Carvers Guild. Recently our organization made the announcement that we were no longer requiring members to renew annually and at that time considered other options.

A new option that we have decided upon is to make this a totally free organization to the general public through our website. We think this will allow us to reach more fish carvers and promote the art further. Membership or registration will no longer be required to have access to our fish carving information on the website.

Because of the high number of NFCG members, maintaining membership rosters and everything that comes with it has also become very time consuming along with costly website maintenance. Eliminating distractions like this enables us to spend more of our time teaching and promoting the art of Fish Carving.

Our great Informational Journals written by many artists will continue along with any other information of interest. Any contributions any of you out there would be interested in making in this regard, please contact us and we will be happy to assist you! Of course we continue to offer our help and assistance in any way with your questions about carving fish. It is a pleasure for us to correspond and promote the art!

Let me add that if any of you have joined in the last six months that we are offering a refund of your fifteen dollar fee if you so wish. Just contact and let us know you would like a refund and we will be happy to do so.

Many happy returns,

Dan Patterson, President NFCG
